AI ADVOKAT

ZKP Commentary v6 — Portal Integration

Governed secondary professional layer · 19.10.2026

AI Advokat · 2026

Purpose

Register the Коментар на Законот за кривичната постапка · Верзија 6 by Attorney Zoran Stojankich as a governed secondary professional layer in AI Advokat.

Boundary

1. The existing governed ZKP statutory corpus remains the controlling law layer.
2. The Commentary is authorial analysis, not a primary legal source.
3. AI retrieval order is: statutory article → attributed commentary → separately verified case law → labelled AI synthesis.
4. Professional reliance remains subject to Human Gate.
5. Canonical brand is AI Advokat / АИ АДВОКАТ. The generation suffix “4” is removed by the normalisation script.
